

FREE VACCINES FOR ADULTS

In an effort to increase adult vaccination rates and remove cost barriers to access vaccines, Marion County Public Health was recently approved as a site for the new Iowa Vaccine for Adults (VFA) program to provide no cost vaccines for uninsured and underinsured adults 19 years of age or older.

Adults 19 years or older who meet any of the following criteria:

- Uninsured (no health insurance coverage)
- Underinsured
- Has insurance that doesn't cover vaccines, caps prevention services, or whose insurance does not provide first-dollar coverage for vaccines
- Has Medicare Part B or Medicare Part D only (eligible for specific vaccines not covered)

Adults with private insurance, Medicaid, Iowa Health Link membership, or both Medicare Part B and D are not eligible for the Iowa VFA program.
